EDUCATION

Columbia University, New York, NY Bachelor of Science, Computer Engineering
Sept 2023 – Present

- Interest: User Innovation & Design, AI Advancement, and Networks & Systems.
- Clubs: Columbia Space Initiative, ADI, BSO, CU Records.

St. Lawrence University, Canton, NY Bachelor of Arts, Mathematics
Jul 2020 - May 2023

- Awards: Dean's List 2022, Fall Liberty League Football All-Academic Team 2021.

James Cook University, Townsville, Qld Bachelor of Science, Computer Engineering
Jun 2022 - Nov 2022

- Interests: Artificial Intelligence, Statistical Data Mining.

WORK EXPERIENCE

City of Elizabeth, Database Engineer Intern Elizabeth, NJ May 2024 - Sep 2024

- Managed databases using MongoDB and Excel to enhance document storage and promote collaborative tools, optimizing a knowledge-sharing network for over 500 users.

Columbia University, IDE Intern, New York, NY Sep 2023 - May 2024

- Modified and managed content on the Columbia IDE website deploying WordPress, enhancing user interaction and engagement with affiliated organizations.

St. Lawrence University, Career Excellence Intern, Canton, NY Aug 2021 - May 2022

- Utilized Microsoft Word, PowerPoint, and Excel to analyze trends and present insights, driving monthly improvements in the Career Excellence Center's effectiveness.

HIGHLIGHTED PROJECTS & EXPERIENCE

- Founded FITD, an AI-powered app developed using Swift language that curates personalized outfits from users' closets, while recommending small clothing brands globally.
- Employed Python to implement RSA, ASCH (2014 Sony Hack), and ECDSA algorithms for ethical message encrypt/decrypt optimizing computing power in security systems.

PUBLICATIONS

- Conducted independent research in Australia on sharks, rays, and the Great Barrier Reef's lifespan, using R for statistical analysis, published by Weave News.

SKILLS

- Languages: Python, Java, C, C++, Swift, R, MATLAB, Html, CSS, JavaScript, Flask, SQL.
- Hardware: Circuitry, Semi-conductors, LTSpice, Oscilloscope, Sensors, Arduino, Raspberry Pi
- Basics: Microsoft Suite, Google Suite, Social Media Platforms, Music Production Softwares.

COURSES

Python, Java, C, Cryptography, Data Structures & Algorithms, Advance Programming, Computer Systems, Computer Science Theory, Electronic Circuits, Computer Networks, Computer Architecture, Programming, Languages & Translators, UI Design, Artificial Intelligence, Microcontrollers, Signals & Systems, Circuits Analysis, Probability, Stochastic Processes, Statistical Data Mining
