

ZAKIY T. MANIGO

Software Engineer

+1 (908) 230-6948 · zakiymanigo@gmail.com · [linkedin.com/in/zakiymanigo](https://www.linkedin.com/in/zakiymanigo)

Software engineer who turns an unclear product need into contracts, code, and a release that stays honest when vendors, clocks, and users misbehave. Strongest on TypeScript product systems; also ships Swift, React Native, and Firebase/Azure.

EXPERIENCE

BariAccess (TREI) — Software Engineer (one of two primary engineers)

Jul 2026 – Present · New York, NY / Remote

- Built production TypeScript across API, worker, website, staff console, and iPhone client for a clinic-real GLP-1 / metabolic-care product ([trei.care](#)). Features landed behind tests, CI (`npm run check`), schema migrations, and fail-closed release gates.
- Owned ordinary production-hard problems: Calendly delayed creates, Stripe event ordering, Spike disconnect vs outage, overlapping Home refreshes, webhook idempotency, and stale-load guards.
- Staging path on Azure Container Apps (Entra, Key Vault, Service Bus) and TestFlight-oriented iOS builds. ~203 commits and ~99k lines added beside a co-author; do not claim sole ownership of the platform.

LaunchPage Studios — Founding Engineer

Oct 2025 – Present · New York, NY / New Jersey

- TaxTacker: shipped a production tax-record organizer (React 18 + TypeScript + Expo) with Stripe, IAP, App Check, Crashlytics, Firestore/Storage rules, CSP, and GitHub Actions. Hosted at [launchpage-tax-tracker.web.app](#).
- Alex Road Service: sole engineer on a shop operations platform (~67k insertions) — RBAC, server-owned writes, sequential IDs, optimistic concurrency, Stripe Checkout + refunds, VIN decode, i18n, rules tests, and CI.
- Insightful Care Solutions: production telepsychiatry marketing and intake site for a New Jersey practice. Live: [insightfulcare.solutions](#).

FITD — Founder & Engineer

2025 – Present

- Designed and operate a multi-surface fashion product: SwiftUI iOS, Firebase/GCP backend, Vertex virtual try-on, Gemini labeling/stylist, StoreKit 2, App Check, and a staging project. Handbook, architecture, and contractor onboarding docs so others can join.

FitGenius — Founding Technical Partner

May 2026 – Sep 2026

- Consumer fitness app with progressive-overload and GPS/pace engines, Gemini coach under an allowlisted context, mobile Jest + functions tests + Firebase rules tests, and GitHub Actions CI.

City of Elizabeth — Database Engineer Intern

May 2024 – Sep 2024 · Elizabeth, NJ

- MongoDB and Excel document stores supporting a 500+ user knowledge-sharing network.

EDUCATION

Columbia University — B.S., Computer Engineering · Sep 2023 – Present · New York, NY

Interests: user innovation & design, AI, networks & systems. Clubs: CSI, ADI.

St. Lawrence University — B.A., Mathematics · Jul 2020 – May 2023 · Canton, NY

Dean's List 2022; Liberty League Football All-Academic Team 2021.

James Cook University — Computer Engineering (exchange) · Jun 2022 – Nov 2022 · Townsville, QLD

SKILLS

Languages: TypeScript, JavaScript, Python, Swift, SQL, C/C++, Java, HTML/CSS

Systems: React, Expo, Fastify, PostgreSQL, Firebase/GCP, Azure, Stripe, GitHub Actions

Courses: Data Structures & Algorithms, Computer Systems, Networks, Architecture, UI Design, AI, Cryptography
