

Ethan Ruiz

(908) 403-5290 | ethanruiz24@gmail.com | New Jersey

Technology consultant with ~2 years at EY's Financial Services Risk Transformation practice, delivering digital transformation engagements for banking clients. Experienced in current-state process assessments, future-state operating model design, and cross-functional governance frameworks. Proven track record translating business challenges into roadmaps, managing stakeholder relationships, and delivering results across fast-paced, multi-stakeholder environments.

RELEVANT EXPERIENCE

Ernst & Young LLP

New York, NY

Financial Services Technology Consultant – FS Risk Transformation

October 2024 – April 2026

- Conducted current-state process assessments and developed target-state operating models for customer due diligence, performing gap analysis to improve risk-rating accuracy for a major banking client.
- Built enterprise-wide cross-LOB processes and governance frameworks around customer risk data spanning multiple platforms, translating ambiguous business needs into structured workflows with clear ownership.
- Led establishment of a cross-LOB case management process enabling targeted 2LOD feedback on risk rating overrides, designing governance structures across multiple stakeholders and systems of record.
- Supported an AI and data strategy engagement for a banking client, focusing on data remediation and global payment solutions to improve data integrity and regulatory compliance.
- Independently owned the development of an internal pitch deck for a stablecoin payroll initiative, outlining payment processing models and stablecoin payout rail architecture, demonstrating proactive thought leadership in emerging digital asset applications.
- Documented adherence procedures by working directly with process owners to map current-state workflows; coordinated PMO activities including stakeholder interviews, client meetings, and consolidated tracking artifacts.
- Developed adherence metrics matrix by reviewing bank policies and translating them into trackable compliance measures across in-scope processes, demonstrating ability to design scalable process controls.
- Supported cyber audit engagements by reviewing incident evidence, assessing investigation sufficiency, and documenting conclusions on financial impact, including analysis of threat actor activity and indicators of compromise.
- Conducted transaction monitoring and sanctions screening across crypto, corporate, commercial, and SME banking clients, clearing or escalating 600+ live wire transfers daily while enhancing compliance protocols.
- Developed Excel and SharePoint-based tools to organize risk attribute discrepancy reviews across multiple LOB customer risk and AML teams, enabling structured data analysis across complex environments.
- Supported business development by drafting proposals, SOWs, and pricing plans; reviewed RFPs for large financial institutions and money services businesses (MSBs).

Ernst & Young LLP

New York, NY

Financial Services Technology/Business Consultant Intern

June 2023 – August 2023

- Worked across three clients (Fortune 500 Life & Annuity carrier, Fraternal Insurance and Financial Services firm, and a Leading Global Wealth & Asset Management firm) implementing Salesforce and MS Dynamics to assess agile maturity.
- Benchmarked agile maturity levels and provided actionable recommendations to strengthen client practices.
- Developed comprehensive management reports and delivered in-person presentations to senior executives and leadership.
