Zakiy Manigo

Software Engineer @ BariAccess | TypeScript, mobile, and care products | Open to SWE, Full-Stack, Product, and Forward Deployed roles

Elizabeth, New Jersey, United States

Summary

Software Engineer at BariAccess, and one of two primary engineers on TREI (trei.care), a clinic-embedded GLP-1 and metabolic-care platform. I ship the product across a TypeScript API, PostgreSQL, a worker, a React staff console, and an Expo iPhone app. Staging runs on Azure. A guarded clinical assistant stays fail-closed when the model misses. Columbia B.S. in Computer Engineering, 2025, through the Combined Plan with a Mathematics B.A. from St. Lawrence. Based in New York / New Jersey. Open to Software Engineer, Full-Stack, Product Engineer, and Forward Deployed roles. TREI — production TypeScript across API, worker, staff console, and iPhone, including Stripe ordering, webhook idempotency, and wearable disconnect versus outage. <https://trei.care> FITD AI — SwiftUI iOS and Firebase/GCP fashion product. <https://fitdai.com> LaunchPage Studio — shop operations and TaxTracker Pro, with role-based access, Stripe, and security-rules tests. <https://launchpage-alex-roadservice.web.app/> <https://launchpage-tax-tracker.web.app/> I lead the technical side of worship at Siloam-Hope First Presbyterian in Elizabeth, help the NAACP Elizabeth Branch with social posting, and supervise tutoring at Central Presbyterian Church in Summit. <https://zakiymanigo-career.web.app> zakiymanigo@gmail.com

Experience

VE ANDREI MD, BARIATRIC ASSOCIATES, PA

Software Engineer

May 2025 - Present (1 year 5 months)

Livingston, NJ

One of two primary engineers on TREI (<https://trei.care>), a wellness-first GLP-1 and metabolic-care platform. Production TypeScript across the API, worker, staff console, website, and iPhone app, with tests, CI, and fail-closed gates.

Owned delayed scheduling creates, Stripe event ordering, wearable disconnect versus outage, webhook idempotency, and stale-load guards.

Operated Azure Container Apps staging with Entra, Key Vault, and Service Bus, and shipped TestFlight-oriented iOS builds on the same release habit. Landed schema migrations and a guarded clinical assistant so a model miss does not open an unguarded clinic surface.

FitGenius

Founding Technical Partner

May 2026 - Present (5 months)

New York City Metropolitan Area

Pre-launch consumer fitness product: iOS and Android on Expo / React Native, Firebase backend, and Gemini coaching with allowlisted context. Training engines cover progressive overload, outdoor pace, GPS validation, and Fit Score. Store submit is still open. Applied model in the product, not model training.

LaunchPage Studio

Founding Engineer

October 2025 - Present (1 year)

New York City Metropolitan Area

Built Automotive Operations System, a shop operations platform with role-based access, server-owned writes, sequential IDs, Stripe Checkout and refunds, and security-rules tests.

<https://launchpage-alex-roadservice.web.app/>

Shipped TaxTracker Pro, a tax-record organizer with one account and one billing state across a React web client and Expo iOS / Android apps. Stripe, store IAP, App Check, Crashlytics, and Firestore and Storage rules.

<https://launchpage-tax-tracker.web.app>

FITD AI

Founder and Engineer

September 2023 - Present (3 years 1 month)

New York City Metropolitan Area

Shipped a fashion product on SwiftUI iOS and Firebase / GCP, with StoreKit 2 and App Check on the same account path. Cloud Functions, Firestore rules, and catalog operations across about 57 brands. <https://fitdai.com>

City of Elizabeth

Database Engineer Intern

May 2024 - September 2024 (5 months)

Elizabeth, NJ

Administered MongoDB and Excel document stores for a knowledge-sharing network used by more than 500 municipal staff. Automated reporting pipelines so departments could reuse shared records without a manual handoff.

Columbia University

Innovation Design & Entrepreneurship Intern

September 2023 - May 2024 (9 months)

New York, NY

Maintained the program WordPress site, UI, and communication across Columbia Engineering affiliates.

St. Lawrence University

Career Excellence Intern

August 2021 - May 2022 (10 months)

Canton, New York, United States

Utilized Microsoft Word, PowerPoint, and Excel to analyze trends and present insights, driving monthly improvements in the Career Excellence Center's effectiveness

Education

Columbia University

Bachelor of Engineering - BE, Computer Engineering · (August 2023 - May 2025)

St. Lawrence University

Bachelor of Engineering - BE, Engineering · (August 2020 - June 2024)

Berkshire School

General Studies · (August 2016 - June 2020)
