I sit with a client, map how they close the books and run the office, then configure the system to match and stay for testing, training, and the weeks after go-live. My accounting evidence is that implementation work: estimates, invoices, payments, refunds, and tax-record workspaces an office can actually close. I completed a Columbia B.S. in Computer Engineering through the Combined Plan and I am based in New York / New Jersey.

RELEVANT EXPERIENCE

BariAccess Livingston, NJ / Hybrid
Software Engineer June 2025 – Present

- Served as one of two primary engineers embedded with Bariatric Associates on TREI (trei.care), covering identity, consults, membership, scheduling, and payments.
- Revised those workflows when clinic operations changed so staff could keep running the product without a parallel paper process.
- Shipped staff operating views and fail-closed ABA, a medical AI assistant and companion being built for TREI in BariAccess, on the same clinic path the office already uses.
- Iterated in a user-acceptance style with the practice on intakes, admission, and daily program work until the software matched the building.

City of Elizabeth Elizabeth, NJ
Database Engineer Intern May 2024 – September 2024

- Administered MongoDB and Excel document stores supporting a knowledge-sharing network used by more than 500 municipal staff.
- Automated reporting pipelines and improved data flow across departments so shared records could be reused without a manual handoff.

PROJECTS

LaunchPage Studio Remote
Founding Engineer October 2025 – Present

- Sat with the shop operator on Automotive Operations System and implemented estimates through refunds and role-based access across more than twenty operations screens.
- Wrote the delivery playbook for Automotive Operations System, including intake, user-acceptance testing with staff, role-based training, and hypercare so the same platform can be configured for the next client.
- Built TaxTracker Pro as a tax-record system for freelancers, with tax-year workspaces, income and expense tracking, documents, exception reports, paid tiers, and a CPA export package.

Insightful Care Solutions New Jersey
Sole Engineer October 2025 – July 2026

- Shipped a production telepsychiatry site with intake, scheduling handoff, and owner operating documentation. Live: insightfulcare.solutions.
- Configured services, insurance, and crisis resources with the practice, then trained the owner on the live site.

FITD AI Remote
Founder and Engineer May 2024 – Present

- Ran brand onboarding with a catalog schema for approximately 57 brands and 16,500 SKUs, an administration CRM, and an in-store kiosk concept.
- Wrote operating documentation so catalog and CRM work can be handed to the next operator.

Local AI Remote
Product Engineer August 2026 – Present

- Built an offline Windows desktop client for local models, documents, and retrieval so a user can work from their own files.
- Shipped a first-run wizard and installer so a non-engineer can load a model and start without a development setup.

EDUCATION

Columbia University New York, NY
Bachelor of Science in Computer Engineering May 2025
Fu Foundation Combined Plan 3+2

Computer Architecture, Databases, AI, Embedded Systems, and UI Design

St. Lawrence University Canton, NY
Bachelor of Arts in Mathematics May 2023
Dean's List, Spring 2022

Calculus, Linear Algebra, Differential Equations, and Group Theory

James Cook University Townsville, QLD, Australia
Undergraduate Exchange Fall 2022
Statistical Data Mining, Probability and Stochastic Processes, Game Design, and Human Rights

SKILLS/INTERESTS

Skills: process mapping, system configuration, UAT, end-user training, hypercare, estimates, invoices, payments, tax-record workspaces, TypeScript, React, Firebase, Stripe, Azure, PostgreSQL, GitHub Actions

Interests: calisthenics, gym, running, basketball, golf, snowboarding, hiking, skeet, pop/R&B production, cooking, journaling, travel, poker

Community: Siloam-Hope First Presbyterian; NAACP Elizabeth Branch; Supervising Tutor, Central Presbyterian Church
