I ship TypeScript services and Python data jobs with PostgreSQL as the record and LLM features held to written checks. I am one of two primary engineers on a clinic platform. I completed a Columbia B.S. in Computer Engineering through the Combined Plan and I am based in New York / New Jersey.

RELEVANT EXPERIENCE

BariAccess

Livingston, NJ / Hybrid

Software Engineer

June 2025 – Present

- Served as one of two primary engineers on TREI (trei.care), building TypeScript from the Fastify API and PostgreSQL through a worker and transactional outbox to the React staff console and patient site.
- Owned operational data workflows into Postgres: wearable pulls, Calendly scheduling races, and Stripe event ordering, with versioned migrations and idempotent handlers so a late or duplicate event does not rewrite the record.
- Productized ABA, a medical AI assistant and companion being built for TREI, on Azure OpenAI so voice and text share one policy path and a model miss cannot invent a clinical claim or become the chart.
- Used HIPAA and GDPR documentation, and the clinic privacy and legal pages, as the written guide for API, worker, and app changes.
- Encoded consent, erasure, least privilege, no PHI in telemetry, Key Vault secrets, and no patient record or secrets in ABA logs.
- Operated Azure Container Apps staging with Entra, Key Vault, and Service Bus, and landed features behind tests, CI, and fail-closed release gates.

City of Elizabeth

Elizabeth, NJ

Database Engineer Intern

May 2024 – September 2024

- Administered MongoDB and Excel document stores supporting a knowledge-sharing network used by more than 500 municipal staff.
- Automated reporting pipelines and improved data flow across departments so shared records could be reused without a manual handoff.

PROJECTS

FITD AI

Remote

Founder and Engineer

May 2024 – Present

- Built a Next.js 14 admin CRM with role-based access, and Python automations including a Flask and SQLite Instagram CRM that calls GPT-4o.
- Moved brand catalog data from crawl files through a Cloud Function import into Firestore for approximately 57 brands, and ran an Instagram scrape into SQLite for later analysis.
- Put Gemini closet labeling, a wardrobe-grounded stylist, and Vertex virtual try-on behind a Cloud Function proxy, with quotas, moderation, and a kill switch on community bots.

Local AI

Remote

Product Engineer

August 2026 – Present

- Built an offline Windows client for local models, documents, and retrieval, with llama.cpp under Tauri, Rust, and React, and chats stored in SQLite.

LaunchPage Studio

Remote

Founding Engineer

October 2025 – Present

- Built Automotive Operations System with role-based access, server-owned writes, Stripe Checkout and refunds, security-rules tests, and GitHub Actions on Firebase Hosting.
- Extended that shop platform across estimates, invoices, inventory, schedule, and encrypted messages, with sequential IDs, optimistic concurrency, and a delivery playbook.
- Shipped TaxTracker Pro with one account, one data model, and one billing state across a React web client and Expo iOS and Android apps.
- Wrote TaxTracker Pro privacy and terms with CCPA and GDPR language, plus operator runbooks for billing, documents, and CPA export.

FitGenius

Remote

Founding Technical Partner

May 2026 – Present

- Shipped a pre-launch fitness app on Expo and React Native, with Cloud Functions, Firestore rules tests, and GitHub Actions.
- Ran Gemini on Vertex inside a legal and compliance suite, with consent gates, account deletion, and payloads stripped of GPS, health samples, and photos.

EDUCATION

Columbia University

New York, NY

Bachelor of Science in Computer Engineering

May 2025

Fu Foundation Combined Plan 3+2

St. Lawrence University

Canton, NY

Bachelor of Arts in Mathematics

May 2023

Dean's List, Spring 2022

James Cook University

Townsville, QLD, Australia

Undergraduate Exchange

Fall 2022

SKILLS/INTERESTS

Skills: TypeScript, Python, SQL, JavaScript, React, Next.js, Fastify, Flask, PostgreSQL, SQLite, Azure OpenAI, Gemini / Vertex AI, Firebase / GCP, Azure, GitHub Actions

Interests: calisthenics, gym, running, basketball, golf, snowboarding, hiking, skeet, pop/R&B production, cooking, journaling, travel, poker

Community: Siloam-Hope First Presbyterian; NAACP Elizabeth Branch; Supervising Tutor, Central Presbyterian Church
