I sit with the people who will use the product, shape the workflow with them, and ship the smallest version staff will actually run. Those decisions live in the software: what is visible, what waits, and what the product is allowed to say. I completed a Columbia B.S. in Computer Engineering through the Combined Plan and I am based in New York / New Jersey.

RELEVANT EXPERIENCE

BariAccess

Livingston, NJ / Hybrid

Software Engineer

June 2025 – Present

- Served as one of two primary engineers building TREI inside a bariatric practice's real onboarding on trei.care.
- Encoded first-release decisions as software, including Free Basic versus Path A, preparation readiness, patient language, and Healthspan gated until destination release.
- Held public surfaces fail-closed and held ABA to approved clinical meaning so the product does not speak a claim the clinic has not approved.
- Partnered with a scientific / product counterpart on intakes, remotes, membership, and daily program work so the shipped workflow matches how the office actually runs.

City of Elizabeth

Elizabeth, NJ

Database Engineer Intern

May 2024 – September 2024

- Improved document storage and knowledge-sharing tools used by more than 500 municipal staff.
- Automated reporting pipelines and improved data flow across departments so shared records could be reused without a manual handoff.

PROJECTS

LaunchPage Studio

Remote

Founding Engineer

October 2025 – Present

- Sat with the shop operator and cut Automotive Operations System to the estimates-through-refunds loop staff would actually run, then shipped more than twenty operations screens and a delivery playbook for the next client.
- Shaped TaxTracker Pro around freelancer tax-year workspaces, missing-item reports, paid tiers, and export for a CPA rather than a filing engine the product does not run.
- Designed TaxTracker Pro onboarding for filing situation, income types, and household so the records workspace matches how those records are actually kept.

FITD AI

Remote

Founder and Engineer

May 2024 – Present

- Shipped the consumer fashion loop of closet, shop, wardrobe-grounded stylist, virtual try-on, social feed, and brand CRM as one product.
- Built a catalog schema for approximately 57 brands and 16,500 SKUs, plus an administration CRM a later operator can run.

Insightful Care Solutions

New Jersey

Sole Engineer

October 2025 – July 2026

- Cut the public site to services, insurance, and crisis resources with booking handoff to ChARM Health. Live: insightfulcare.solutions.
- Sat with the practice, then shipped owner operating documentation so staff could run the live site after launch.

FitGenius

Remote

Founding Technical Partner

May 2026 – Present

- Owned product, mobile, cloud, and founder enablement for a consumer fitness app under a medical-not-clinician system prompt.
- Constrained the coach to a fitness catalog so Gemini answers stay inside allowed context instead of inventing clinical advice.

EDUCATION

Columbia University

New York, NY

Bachelor of Science in Computer Engineering

May 2025

Fu Foundation Combined Plan 3+2

Computer Architecture, Databases, AI, Embedded Systems, and UI Design

St. Lawrence University

Canton, NY

Bachelor of Arts in Mathematics

May 2023

Dean's List, Spring 2022

Calculus, Linear Algebra, Differential Equations, and Group Theory

James Cook University

Townsville, QLD, Australia

Undergraduate Exchange

Fall 2022

Statistical Data Mining, Probability and Stochastic Processes, Game Design, and Human Rights

SKILLS/INTERESTS

Skills: workflow design, release gating, TypeScript, React, Expo, SwiftUI, Fastify, PostgreSQL, Firebase, Stripe, Gemini, Vertex virtual try-on, Azure OpenAI

Interests: calisthenics, gym, running, basketball, golf, snowboarding, hiking, skeet, pop/R&B production, cooking, journaling, travel, poker

Community: Siloam-Hope First Presbyterian; NAACP Elizabeth Branch; Supervising Tutor, Central Presbyterian Church
